

Want your battery's life to be extended?

Introducing the Xtender Battery Regenerator

Purpose:

- Restores and prolongs the lifespan of all sizes and types of batteries
 - Batteries lose capacity & efficiency due to sulfation
- Significant cost savings of battery revival versus purchasing a brand new battery

Process:

- (1) Controlled Discharge (1)
- (2) Restoration Cycle (1)
- (3) Restoration Cycle (2)
- (4) Discharge (2)
- (5) Restoration (3)

Constant high frequency pulse applied throughout. This desulfates the battery very effectively

Pricing:

- 24 Volt Battery - \$650.00
- 36 Volt Battery - \$750.00
- 48 Volt Battery - \$850.00

Pricing does not include shipping/delivery, rental equipment, etc.

After completion of regeneration process, customer will be able to compare the 2 discharge cycles and will be able to see the gain in capacity. Results not guaranteed by Forklifts of Minnesota, Inc.

Forklifts of Minnesota, Inc. • Forklifts of North Dakota • Forklifts of Wisconsin

(952) 887-5400 - 2201 West 94th Street Bloomington, MN 55431
